

**EXS40**  
&  
**EXS40R**

Highly innovated 'spring-in-spring' door solution  
with cable length compensators

## EXS40

- Standard Extension Spring Door Solution
- Suitable for door weights up to **100 kg** and **2500 mm** in height
- Required lintel build in space: **65 mm** for manual operation, **80 mm** with electrical operator
- Minimum side space required: **45 mm** with thermal break seal, **82 mm** with normal seal
- Safety cover possible for gap between curve and track-set, according **EN/12604**
- Innovative patented extension spring construction for high performance: over **25.000 cycles**
- Total of 17 spring sets available to cover complete application range
- Improved cable lifetime due to patented cable compensation device, according **EN/12604**

## EXS40R

- Renovation Extension Spring Door Solution
- Frame build up possible for easy installation
- Suitable for door weights up to **100 kg** and **2500 mm** in height
- Required lintel build in space: **65 mm** for manual operation, **80 mm** with electrical operator
- Minimum side space required for normal and thermal break seal: **45 mm**
- Safety cover for gap between curve and track-set, according **EN/12604**
- Innovative patented extension spring construction for high performance: over **25.000 cycles**
- Total of 17 spring sets available to cover complete application range
- Improved cable lifetime due to patented cable compensation device, according **EN/12604**
